

## Structured Language Experience Story “ade” #1

It was a hot day, even in the shade. We went to the pool to wade but then the sun began to fade. I went home and got our spade to work in the garden our family made. The grass blades were a pretty color of jade. After a few minutes of work I asked this kid if he would trade my spade for his rake. He said yes. Later that night we worked together on a paper to get a good grade.
