

## Structured Language Experience Story “ai” #1

Adam was waiting at the railroad station for his grandma. She was going to come by sailboat, but felt it would be safer to come by train. Adam’s grandma is helping him fix his quaint house. She grabbed the hammer and nails while Adam grabbed some maize and blue paint and a paintbrush. After completing the much needed maintenance on the house, Adam and his grandma planted some daises in Adam’s front yard. When it started to rain, Adam and his grandma ran for cover on the front porch. They saw a pretty rainbow after the storm and were ready to finish planting the daisies.
