

## Structured Language Experience Story “ane” #1

Jane and Shane were very humane to let Dane get off the plane first with his cane. But, inhumanely many people wouldn't let Dane pass by with his cane.

After awhile, Jane craned her head to see if the crowd had waned. She told Shane and Dane there was a jam because a crane had dropped a tank of propane. Shane said it would be insane to try and get by the spilled propane.

Suddenly, the crowd showed their humaneness by creating a lane for Dane. The lane was next to the window pane. Now Dane could make it to his next airplane.
