

## Structured Language Experience Story “ane” #2

Jane and her little sister Lane were flying on an airplane when a hurricane suddenly appeared. Everyone on the plane began to go insane. They could see things flying outside their windowpane. To keep sane, they focused on their upcoming visit with their brother Duane. As the hurricane grew worse, a man with a shaggy mane complained about a membrane that was hurting inside his head. Jane and Lane could feel the plane begin to twist and turn through the air. Before long the airplane passed through the hurricane and Jane and Lane were able to get off the plane and visit their brother Duane.
