

Structured Language Experience Story “ate” #1

Kate went on a date with her brother's roommate Nate who was a cheapskate. He picked her up ten minutes late. When she asked Nate if he was hungry, he said he already ate. Kate was beginning to hate her date. Kate decided it was time to separate from Nate. Kate told Nate the date was second-rate and she would not participate in the rest of the date. Nate began to salivate and said he was hungry. Kate told him not to irritate her anymore. Nate felt infuriated but was still obligated to take her home. When Nate saw his roommate he said that he and Kate could not date.
