

Structured Language Experience Story “it” #2

The babysitter was jittery because the rabbit and kitten chewed on her mittens. She said there was a limit to how many mittens she would lose. So, she quit the job and split from the itty bitty city where she once worked. Since she was witty, it was only fitting that she took a job in the ritzy movie business. She won a glittering role in the movie Chitty Chitty Bang Bang. Now, she has no bitterness toward the kitten and the rabbit, who are still living in the itty bitty city, chewing mittens.
