

## Structured Language Experience Story “ite” #1

The polite sprite added some whitener to her pail. She needed to whitewash the fence before she could go fly her white kite.

As the sprite painted the mitered corner white, she saw a whitetail deer run by her. She wasn't afraid that the deer would bite her. So, the sprite was quite happy to follow the whitetail deer to the site of the lake.

When she arrived, she didn't see the whitetail deer, but she saw many interesting items. Looking into the water, she saw a whitefish swimming. However, the sprite knew that she needed to finish whitewashing the fence. She hurried back to the site of the fence and finished. Finally, she had the whitest fence around. Now the sprite had time to fly her white kite.
