

## Structured Language Experience Story “ot” #1

Dotty was sending her Robot named Zotbot to Mr. Mot’s pottery shop. She said, “When you find Mr. Mot, tell him I want five more pots to add to my pottery collection.” Dotty told her Robot named Zotbot to go to the hottest spot in the store to find Mr. Mot. When Zotbot found the pottery shop, it smelled rotten from some old pottery at the bottom of an old box. The Robot got Dotty five new pots from the pottery shop.
