

Structured Language Experience Story “tion” #1

Jay had to take a 100 question examination before he could participate in graduation. Some of the questions were about the addition and subtraction of fractions. Jay also had to answer questions about friction and he even had to use the dictionary to answer four of the questions. Jay followed all of the directions on the 100 question test and after Easter vacation, he found out that he could participate in graduation. After the graduation ceremony, Jay had a nice celebration filled with a lot of action.
