

## Structured Language Experience Story “ub” #2

I found a grubby, chubby cub that lived under a shrub. He needed a good scrubbing in the bathtub. I put on my rubber gloves. I filled the tub with soapy bubbles. I put the cub into the tub. I rubbed him down with soap. Bubbles got in his eyes! He jumped from the tub and ran under his shrub. I chased him and he ran into a meeting of the fan club. The club was meeting about putting in a hot tub near the shrubbery. The grubby, chubby cub started a hubbub in the club. When I grabbed the grubby cub, I knew I would have to scrub him in the tub again. This time I will keep the bubbles out of the cub's eyes.
