

## Structured Language Experience Story “up” #2

The guppy and the puppy were by the creek and having an argument. They both wanted to get home to have supper with their yuppie owner. The guppy wanted to go upstream to get to the kitchen but the puppy wanted to take a shortcut. They couldn't agree so they each went their own way.

While traveling upstream the guppy encountered rapids but he swam extra hard through all the upheaval caused by the moving water. The guppy finally made it and joined the puppy and their yuppie owner in the upscale home to each fish food and bones.
