

Structured Language Experience Story “ut” #1

I had just gotten up. I was cutting the butter for my toast when it all started. I saw a squirrel in the gutter with a nut. The squirrel jumped off the gutter and onto the shutter. There was a loud sound. The shutter had fallen off the house! My mom came and asked what had happened. I muttered that the squirrel had jumped from the gutter to the shutter and that the shutter had fallen to the ground. My mom said, “That nutty squirrel is always in my gutter and on my shutter.” Then my mom shut the butter and went to put the shutter back up.
